

ELABORATELY FURNISHED HEADQUARTERS FOR POLICE OF BOLIVIA ON CAR TRUCK

Police officials of La Paz, Bolivia, must ride in fitting state. Hence a motor truck has just been finished for them, and it is believed that this machine is the most elaborate ever manufactured.

The body is designed with three compartments—one for the chauffeur, one for the chief, and the third for the prisoners. The chief's compartment is furnished with handsome swivel chairs, upholstered in blue leather, and richly carpeted. The windows are draped with curtains to match. Among the refinements is an electric cigar lighter. In the prisoners' compartment there are no such luxuries, and to make sure that the arrested will not escape, rings have been placed in the backs of the seats to which the occupants are handcuffed.

The photograph shows the rich and palatially-furnished police car.

DISTILLED WATER FOR BATTERIES

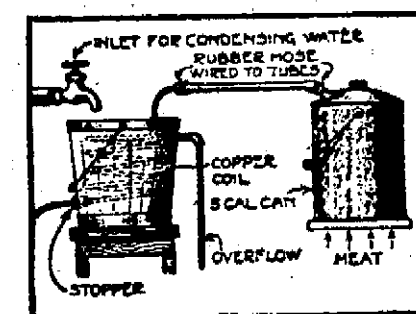

Can Be Had at Any Time by
Means of Distilling Arrange-
ment Herein Described.

KEROSENE CAN VERY HANDY

Coil of Copper Tubing Fitted into
Common Wooden Bucket Is Essen-
tial—Prevent Contamination
by Keeping Jar Corked.

To keep storage batteries in a healthy condition for maximum service pure water must be added at stated intervals, usually about once a week. By pure water is meant water reasonably free from mineral impurities which in time would accumulate in the bottom of the cells and impair the action of the battery. The three sources of pure water are rain water, melted artificial ice water and distilled water. The two former are in many cases hard to procure when most needed, but distilled water can be had at any time by means of a simple distilling arrangement herein described.

Distilling is accomplished by driving steam from a body of heated water through a tube sufficiently chilled to condense the steam back into fluid

Distilled Water is Absolutely Necess-
ary to Storage Batteries—Here's
a Way to Manufacture It Cheaply.

form. The solids are left behind and pure water is the result.

A five-gallon kerosene can makes an admirable boiler. Punch a very small hole through the filler cap to allow for evaporation. Some steam will escape but will not interfere with the operation. Bend a spiral coil out of about ten feet of one-half-inch copper tubing so it will fit easily into a common wooden water bucket.

Bore a large hole in the side of the bucket near the bottom and fit a wooden stopper to it. The lower end of the coil passes through a snug fitting hole in this stopper and turns downward to discharge its contents. By painting the part of the tubing inclosed by the stopper and the outside of the stopper itself with roofing paint and then forcing both in place a tight joint may be made.

Connect the upper end of the coil and the spout on the boiler with a piece of steam hose or heavy rubber tubing. Wire on each end to make steam-tight.

Provide running cold water for the bucket and pierce the side above the top coil for an overflow. By regulating the flow of water in the bucket the level can be kept above the coils without overflowing. But be sure to keep enough running in so the contents will not become warm.

Fill the boiler three-quarters full and boil it just hard enough to throw off sufficient steam without creating pressure. This will fill the coils with steam, which will quickly condense as it passes down the cold coils and will emerge as pure water in the jar below the discharge.

Keep the jar well corked when full to prevent contamination from the air.—L. B. Robbins in Popular Science Monthly.

OVERHAUL YOUR CAR BEFORE STARTING IT

Many Things Should Be Attended
to in Early Spring.

Owner Should Go Over Every Part of
Mechanism, Cleaning, Oiling and
Tightening Loose Parts—Let
Carburetor Alone.

If your car has been in storage during the winter, give it a thorough overhauling at this time of the year, before starting it on the road, says a pioneer automobile man.

Here is a list of the things which need to be done to prepare your car properly for good weather driving, he said:

1. Fill the radiator with water. See that the gasoline tank contains a sufficient quantity of gasoline and that there is plenty of oil in the crank case.
2. Take your storage batteries down and have them tested.
3. Assuming that the tires were taken off when the car was stored and put in a warm place, they should be looked over for weak spots and properly inflated.
4. Scrape the rims and paint them with shellac and flake graphite.
5. Start the motor and drain out the crank case and run the motor so as to pump it thoroughly through the oiling system; then draw it out and fill it up with fresh oil.
6. Remove the carbon from the engine.
7. Grind the valves.
8. Adjust the valves, brakes and bearings.
9. Oil the gear-shifting mechanism, clutch and brake mechanism and all clevis pins.
10. Inspect oil pump and fittings for possible leak.
11. Clean out and fill all grease cups with a good grade of medium weight grease.
12. For the next week put three tablespoonfuls of kerosene in each cylinder to cut the carbon, and let it stand over night.
13. Clean differential and oil universals and gear sets.

In a word, go over every part of the mechanism, cleaning, oiling and tightening loose parts. Don't take anything for granted. Above all things, do not meddle with the carburetor. When it leaves the factory it is properly adjusted. Ninety per cent of all motorcar trouble is with the ignition.

AUTOMOBILE GOSSIP

Car owners should check up the
alignment of the wheels three times a
year.

The radiator hose connections in
the water system of the motor should
be frequently inspected.

Self-starters at present are very re-
liable; nevertheless this does not
mean that this device does not need
careful attention.

By keeping the water in the battery
up to its proper level it will increase
the efficiency of the battery and im-
prove its lasting qualities.

When the spark cap of a plug is too
great there is danger of burning
out the secondary wire of the coil from
the heat engendered by the excessive
resistance.

All motors will get only in proper
tion to the wear on the valves. Fre-
quent and proper timing with slight
adjustment will save considerable of
the wear.

Owners of light cars should bear in
mind the fact that in a light machine
lubrication is more effective in keep-
ing rust bolts and screws than in a
heavy car.

Here and There Among
the World War Veterans

(Copy for This Department Supplied by National Headquarters of the American Legion.)

HAS LONG MILITARY RECORD

Robert H. Tyndall, National Treas-
urer, Was in Command of Regi-
ment Throughout War.

Robert H. Tyndall, the newly elected national treasurer of the American Legion, is a native of Indianapolis, the permanent home of the Legion's national headquarters. He was born May 2, 1877, and has for some time been connected with the Fletcher-American banking interests in his native city, which connection he will retain during his period of office with the American Legion. He succeeded Casper G. Bacon of Boston, who recently resigned from the position of national treasurer.

Mr. Tyndall has a long military record, having enlisted in Battery A of the Indiana National Guard in October, 1897. The battery was mustered into the Twenty-seventh Indiana volunteer battery May 18, 1898, becoming a part of the expeditionary forces in Porto Rico, August 4 to September 7, 1898.

In 1900 he enlisted in the reorganized Indiana National Guard and served as corporal, sergeant, lieutenant and captain of Battery A, Indiana National Guard, to April 22, 1913, when he was commissioned a major and placed in command of the First Battalion, Indiana Field artillery.

He served on the border from July 10, 1916, to January 19, 1917, having been stationed at Llano Grande, Tex. He was promoted to the rank of colonel on April 15, 1917, and placed in command of the One Hundred and Fiftieth Field Artillery, Forty-second division (Rainbow), arriving in France October 31, 1917.

He was in command of a regiment throughout the war with Germany, and was part of the army of occupation until April 7, 1919. He was mustered out of the service May 24, 1919.

REYNOLDS ASSUMES NEW JOB

Lieutenant Colonel Now Is Secretary
of the Indianapolis Chamber
of Commerce.

Lieut. Col. John B. Reynolds, who, as officer in charge of the re-employment of discharged ex-service men in the central district, had his offices in headquarters building of the American Legion, Indianapolis, has secured his discharge to accept the position of general secretary of the Indianapolis chamber of commerce. The district, of which Col. Reynolds had charge, comprised 17 states.

Col. Reynolds was in the service in this country and France for more than two years, spending several months in Washington following the armistice as chief of correspondence and assistant executive to Major General Kenly, then director of military aeronautics, continuing under the new director of air service, Major General Menoher, until he assumed this post in Indianapolis.

His broad experience and familiarity with the situation in Washington made him an able adviser for consultation by the legion headquarters staff, while the presence in the headquarters building of a war department representative was a great convenience.

The position he has accepted with the Indianapolis chamber of commerce is considered one of the best of that kind in the country, the Indianapolis civic-commercial organization having a membership of 4,000, while the city is second in the manufacture of automobiles and ranks high in the meat packing and other industries, assuring a great future for the colonel.

Distribution of Army Rifles.

Regulations and instructions covering the issuance and distribution of army rifles, under the Rogers bill recently enacted by congress, are being prepared in the office of the adjutant general of the army. As soon as these instructions are completed, full information and definite instructions as to the method to be followed in securing the rifles will be published. A request has been sent from national headquarters of the American Legion to all the posts of the organization to refrain from writing the war department or in any way attempting to secure these rifles before detailed instructions on the proper procedure have been issued from headquarters.

IS NOW ASSISTANT ADJUTANT

George H. Rennie Is Named to Aid
Lemuel Bolles in Conducting
Legion Affairs.

Announcement has just been made of the appointment of George H. Rennie as assistant adjutant of the American Legion, in which capacity he will assist Lemuel Bolles, national adjutant, in conducting the affairs of the organization.

Mr. Rennie, who is just past thirty, has had varied business interests. Following the completion of his education abroad, he was connected with the Pressed Steel Car company of New York for four years.

Later he became executive assistant to the late Willard Straight, from 1913 to 1917, during the latter's connection with J. P. Morgan & Company, and the American International corporation.

Enlisting as a private of infantry in Washington, D. C., in November, 1917, he sailed for overseas service the next month, was commissioned a second lieutenant and was made a captain a few months before his return to the United States, December 29, 1918. He received a citation for extra meritorious service. In January, 1919, he was made assistant director of the bureau of war risk insurance, which position he held until his connection with the American Legion.

WAR MUSEUM AND LIBRARY

Permanent Institution of the Ameri-
can Legion Will Be Established
at Indianapolis.

Announcement has been made at national headquarters of the American Legion that the permanent war museum and war library of the legion will be established at Indianapolis. Provision was made for such establishment at the Minneapolis convention, Indianapolis and citizens of Indiana will erect a war memorial building which will be devoted to the following purposes: First, national headquarters for the American Legion, as an auditorium of large capacity for public gatherings, to house a war library and war museum, and as headquarters for other veteran organizations of previous wars.

Besides being available principally for the American Legion, it will also be open to meetings of the Grand Army of the Republic, the Confederate Veterans and the Spanish-American War Veterans.

It is intended that the museum in this building will contain thousands of articles of military significance used in connection with America's participation in the world war—pieces of field artillery, hand grenades, gas masks and other ordnance and equipment. Prominent among these relics will be the first American flag to go over the top, which was presented to the American Legion at Minneapolis by the Canadian War Veterans' association.

The popularity of such exhibits has been demonstrated abroad, where thousands are seen daily examining closely the different objects of interest. In addition to the field pieces displayed along the Avenue Champs Elysees and Place de la Concorde, the museum in the Invalides in Paris contains airplanes of popular French aces, marine mines and other relics, including pictures of war scenes depicted through various art media. The Mail in London, as well as British museums, have been utilized in a similar way.

The library will contain everything available pertaining to the history of the great conflict. This will include not only histories and other books telling of the struggle, but files of newspapers and magazines, complete sets of posters and propaganda material issued by both sides, reports of war boards and recreational and relief organizations, such as the Red Cross, War Camp Community Service and others.

To Establish Post in China.

The sun never sets on the American Legion. A group of American veterans in Shanghai, China, are now converting their "Service club" into a post of the legion that will have jurisdiction over the entire republic, while in Tokyo, across the Yellow sea, a post is to be organized among Americans living in the flower kingdom. Charles Barrett, American military attaché at Tokyo, has asked that copies of the constitution and by-laws of the American Legion be sent him, as there are a number of his fellow-countrymen there who served in the late war. The organization of the Shanghai post is being directed by Arthur P. Bassett, military attaché at Peking, who served for a time with the Fifth United States Infantry.

Origin of Old Saying.

If you will read up on the theological controversy between Arius and Athanasius over the nature of the second person in the Trinity you will get the plausible origin of the saying, "I don't care an iota." The one contended, using the Greek word, that Jesus was "homousios," that is, of the same nature as God, the other arguing that he was "homolousios," that is, of similar nature. You will detect that the two Greek words differ only by an iota, the Greek name for their letter "I." So one tired of the riots in Byzantium and the prolonged discussions, contentedly said he did not care an iota.—Pittsburgh Dispatch.

Mrs. Howard C. Christy

The overall "strike" launched in the south as a means of reducing prices has reached New York, and indications are the blue denim garments will become quite popular. The movement has been endorsed by many prominent New York folk, among them Mrs. Howard Chandler Christy, wife of the noted artist and a leader in New York society. Several hundred prominent men and women have pledged themselves to wear the overalls and gingham in the effort to reduce the cost of clothing.

President Carranza

General Obregon

General B.G. Hill

General Alvaro Obregon, candidate for the presidency of Mexico, and General Benjamin Hill, his campaign manager, have fled from the Mexican capital, according to a dispatch from Mexico City. An earlier dispatch stated that an unsuccessful attempt had been made on the life of President Carranza and that a member of General Hill's staff was arrested in the alleged assassination. General Hill had previously been arrested by order of General Carranza on the charge of being too active in the Mexican presidential elections. Troops of the new republic of Sonora have had their first battle with the Carranza forces on the Sonora-Sinaloa boundary. General Pablo Gonzales, former chief military leader under the present Mexican government, has also joined the revolt, according to reports and has demanded the resignation of Carranza.

KINGSTON, N. Y., APRIL 19, 1920.

Organized attack upon the high prices seems invariably to have the opposite of the desired effect. All that the protest against the high cost of clothing instituted by the Overalls Club of Birmingham, Ala., seems to have accomplished is a 300 per cent advance in the price of overalls. Similar results followed the recommendation of the department of justice that everybody eat chuck meat for a week. The public has been advised repeatedly to beat the profiteers by buying sparingly or not at all. There is point in this plan, provided it be adopted individually and there is no collective rush for any single substituted article of comparatively moderate price. The public can do much toward the restoration of normal conditions by purchasing sparingly, but the exercise of common sense is needed. The effort should be individual and lacking in noise. Nothing is more manifest than that the profiteers, promptly apprised of all organized "stunts," at once employ keen wits to meet and even make money out of them.

THE SECESSION OF SONORA.

Americans with large mining interests in Mexico, who have long quietly agitated in favor of the annexation of the northern section of that country to the United States, are doubtless deeply interested in the secession of the state of Sonora from the Mexican republic and the reported sympathy with this movement on the part of both Sinaloa and Lower California. The two states first named occupy the eastern shore and the third the western shore of the Gulf of California. Strategically the possession of this territory and of the Gulf of California would of course be of great value to the United States. Students of American history have wondered that President Pierce, his able cabinet including Jefferson Davis, and the Democratic congress of 1853, while putting through the Gadsden Purchase, did not cause the Arizona line to be carried forty or fifty miles still further south and thus secure a desirable United States port on the Gulf of California.

They could have done so, for the "purchase" of a strip of territory 500 miles long by about 120 miles deep, carrying the boundaries of Arizona and the New Mexico further south, was virtually forced on conquered Mexico and caused a great outcry among the Mexicans, who less than six years before, by the treaty of Guadalupe, had been compelled to give up the vast territory now included in California, Nevada, Utah, the western part of Colorado and the greater part of New Mexico and Arizona. In addition to the disputed Texas tract between the river Nueces and the Rio Grande. The first rich fruits of conquest were thinly disguised by the payment to Mexico of the very moderate sum of \$15,000,000, and for the Gadsden tract that country received \$10,000,000, but it is nevertheless true that the Mexicans yielded to force in the first instance and to expected force in the second.

The historical record of these transactions is perhaps the greatest obstacle that confronts the American interests desirous to have northern Mexico annexed. There is a feeling in the United States that quite enough territory has been acquired from Mexico, which also had its great province of Texas through the revolt of American settlers. In consequence of such American settlement the revolt of Texas and its later admission into our union of states were inevitable. But very different in the case of wooded Sonora and sympathizing Sinaloa and Lower California. They have no American settlers to speak of and would not wish to come into our union even if they should succeed in cutting loose from Mexico. Our associations can not point to Texas as a precedent and would have no such extreme for agitation. It is a pity that the Gadsden purchase of 67 years ago did not include an American port on the Gulf

of California, but with public sentiment such as it is in these times any further acquisition of the sort appears to be hardly a remote possibility.

BASKETBALL CHAMPS.

Fleischmanns Ends Season With 25

Won And 7 Lost.

Fleischmanns, April 17.—The local high school basket ball team won from Hobart here last night, before the largest crowd of the season. It is remembered that Fleischmanns was beaten at Hobart some time ago, but only those present, know under what circumstances. Last night the Fleischmanns team were determined to turn tables, and during the first half, by putting up a wonderful article of passwork and speed, they run up a lead of 32-4.

The second half was a copy of the first, Fleischmanns always forcing the play. The game ended with Fleischmanns the owner of their twenty-fifth victory of the season.

Faulkner and Earl played a good game, scoring many baskets from all angles. Barrett played his usual fast floor game, while Persons and Jocelyn put up a defensive game, that has long been their chief trait.

With this game under their belts, Fleischmanns are far ahead of any other team in Eastern Delaware county and besides this championship they recently won the honors from Oneonta. Their season's record is twenty five victories and seven defeats. They have put up an exceedingly fast and clean game.

The line up:
Hobart—Dales and Foote forwards; Rich, center; Dales and Jackson, guards.

Fleischmanns—Barrett and Earl, forwards; Faulkner, center; Persons and Jocelyn, guards.

Referee, Lasher; scorer, Banker; timer, Paulding.

Milk From Coconuts.
Along the Orange river natives have an ingenious way of producing "milk." After cutting the top from a coconut they place it over ashes so that the warmth may cause the fat and "but-ter" contained in the husk to be absorbed by the milk; this changes the milk's quantity and gives it a palatable taste.

London, April 19.—General Wrangle, the new anti-Bolshevik chief of Crimea, is taking vigorous measures against the soviet forces, said a Constantinople dispatch to the Daily Express today. After establishing headquarters at Sebastopol, General Wrangle dissolved 200 committees within five days. Two officers were summarily executed for disobedience.

Asked whether he would issue a proclamation setting forth his aims, General Wrangle has been quoted as replying: "There has been too much talk already. I am going to try to beat the Bolsheviks. That is all there is to it."

General Wrangle said his ambition is to unite Russia and then let a newly elected parliament decide what the future of the country shall be.

PORT EWEN.

Port Ewen, April 19.—Mrs. Augustus Walker and son, Willard, of New York city are guests of Mrs. Lucy Walker on Broadway.

The many friends of the Rev. and Mrs. G. Franklin Snyder were pleased to have them call on them during their short stay in Port Ewen. Rev. and Mrs. Snyder returned to their home at Tannersville Friday.

The clam chowder and food sale held Friday in the Methodist chapel was a decided success.

Mrs. Julius Ryder and little niece, Vaunetta Winne of Ashokan, who have been visiting Mrs. Ryder's sister Mrs. Charles Vincent of Bowne street, have returned to their home.

Mr. and Mrs. C. D. Jump of Hensonville are guests of Mr. and Mrs. Harry Jump on Broadway.

Port Ewen Lodge, No. 555, will meet this evening in its rooms in Pythian Hall.

Mr. and Mrs. John Relyea of Springtown are guests of Mrs. Mary Van Aken on Green street.

Augustus Walker of New York city spent Sunday with his wife and son at the home of his mother, Mrs. Lucy Walker, on Broadway.

Miss Laura Onslow is spending a few days with friends here.

Mrs. Grand E. Robinson who has been the guest of her mother, Mrs. G. P. Griffin, returned to Delhi Monday.

The friends of Mrs. John Lynn will be pleased to hear she is getting along fine from her recent operation at Kingston City Hospital, performed by Drs. Ross and Chandler. We are all hoping for her speedy recovery and her return home.

Rev. George E. Wright, the new pastor of the Methodist Church preached an introductory sermon that was filled with inspiration. His

theme was taken from 3 Cor. 12-14: "I seek Not Yours But You," and in the evening he spoke on these words, "I am determined to know nothing among you but Jesus Christ and him crucified." 1 Cor. 13: 1. The pastor brought to his people wonderful truths and was listened to by large and appreciative audiences.

The Missionary Society of the Reformed Church will meet at the home of Mrs. Willard F. Blumhert on Broadway Tuesday afternoon, April 20th, at 2 o'clock.

She Comes No More.

My little friend in the apartment across the hall was a studious pupil who had come to my apartment for a few hints in the execution of her studies when a mutual friend of ours who was known as a chatterbox was seen coming down the street headed for my apartment.

My friend, being more cautious to speed an hour studying than talking, said, "Tell her that I am not here," and hid in a fair sized clothes hamper, expecting the talkative party to leave in a moment or two.

Forty-five minutes passed and to my horror the hidden one sneezed, while in the clothes hamper. I could barely keep from laughing; in fact, a little smile from me seemed to give away the entire proceeding. The talkative friend evidently had discovered the intrigue, for she left immediately, and although this happened some time ago, we have never seen her since.

This certainly was my most embarrassing moment.—Exchange.

When "Leap Year" Lapsed.

The same "leap year" is supposed to have grown out of King Henry's proclamation making February 29 and 30 legally one day, Father Time being conceived of as leaping the gap from the 28th day of February to the first day of March.

Just where and how
is the money to be spent?A businesslike Answer to
a businesslike Question

THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its needs under six main heads as shown at the left.

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget: examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post of service assigned to it in advance.

Every dollar for a better America and a better world! When your church calls on you, give—and give from your heart as well as from your pocket-book.

TROLLEY PROTEST MEETING TONIGHT

A protest meeting will be held this evening at 8 o'clock at the court house for the purpose of discussing the proposed removal of the trolley tracks from Washington avenue. Judge Jenkins, Frank Brooks and Joseph Murray will be the speakers and an opportunity will be given for any citizen to express his views. Plans made Friday evening at a meeting of several lawyers and citizens of the Eleventh and Twelfth wards, will be placed before the meeting this evening.

The public hearing on the matter will be held May 5th at the court house at 10 a. m., when Chairman Hill of the Public Service Commission will be present, and it is at the meeting this evening that some plan will be adopted to enter a formal protest at that hearing. The meeting this evening is not limited to people of the Eleventh and Twelfth wards, but people from all over the city who have an opinion to express are invited to attend.

The meeting will be held upstairs in the court room and arrangements have been made to hold an overflow meeting in the supervisors' room downstairs in case everyone cannot be accommodated at the main meeting.

WILSON AGAINST SCUTARI DEAL

Although U. S. Is Not Represented At Supreme Council Meeting President Will Also Protest Albanian Partition, Says Johnson.

By Telegraph to The Freeman.

San Remo, Italy, April 19.—The most important meeting of the inter-allied supreme council since the peace conference in Paris ended, opened here today. The United States is without representation.

Premier Millerand is reported to have suggested to Premier Lloyd George that France, England and Belgium jointly occupy the German Ruhr district to insure German coal deliveries if the Reichswehr refuses to evacuate that zone. The French premier is said to have taken the stand that a blockade of Germany would give rise to objections on the ground that it was "not humane." Premier Millerand further believes that a blockade would retard the restoration of Germany.

Robert Underwood Johnson, the new American ambassador to Italy, who stopped off here on his way from Paris to Rome, declared that President Wilson will protest against the proposal for the partition of Albania and also against the cession of Scutari to Jugo-Slavia.

When Mr. Johnson arrived here Saturday night reports became current that he would participate in the supreme council meeting, but he explained that his presence was due to railway strike troubles which made it necessary for him to pass through San Remo. He planned to take the Modane route, but the tie up of traffic compelled him to take the southern route. He left Sunday night.

Up to the last minute, Mr. Johnson had expected to represent the United States at the meeting, but received no instructions from Washington.

He told friends that instructions may be awaiting him at the American embassy at Rome and that he might return to participate as an observer without taking an active part in the deliberations.

COFFEY WON.
Young Rector Also Beat His Opponent at Hackensack.

By Telegraph to The Freeman.

New York, April 19.—(Special.)—At the North Jersey Sporting Club of Hackensack last night two eight round bouts that were enjoyed by a great crowd were fought and Vince Coffey, the Kingston sleazebag, won easily over Tommy Quinn of Boston, dropping him for a count of nine in the second round. In the other bout Coffey's stable mate, Young Rector, defeated Frankie Olsen of Pearl River, N. Y., in a thriller.

McCabe Has Liquor Permit.
A permit to sell at wholesale wines and liquors to druggists, physicians, hospitals, sanitariums and manufacturers, has been received through the treasury department from the bureau of internal revenue at Washington, D. C., by John J. McCabe, 234 Wall street. The permit allows him to dispense it only to those who have a permit to use same in case of illness or for use in manufacturing proprietary articles, etc. Similar permits have been received by Abram Handler and Costello & Smith, and Carl O. Fischer has been granted a permit to sell wines.

Vote to Make War Risk Pay.
By unanimous vote Saturday the house of representatives at Washington, D. C., passed a bill increasing by \$20 a month the war risk insurance payment of the government to \$5,000 disabled soldiers and sailors now receiving vocational rehabilitation. Under the measure, which now goes to the senate, single men would receive \$100 a month, and married men \$120. Various organizations of world war veterans supported the bill.

A distinguish-
ed concert by

Mario Laurenti —The Brilliant

Superb baritone of the Metropolitan Opera Company, New York. Great soloist in oratorio. Gifted interpreter of concert's gems. A rich, young voice with an exceptional lyric quality. Hear him.

Monday Night, Kingston Opera House

Some artists are great of voice. Others are merely great of stage performance. To judge how truly great is Mario Laurenti, hear him outside of his physical presence. Hear his voice as it is literally RE-CREATED by the New Edison. Only then will you be able to appreciate fully its sub-

lime beauty. It is actually true that thousands of music lovers have heard Laurenti publicly compare his voice with the New Edison's RE-CREATION of that voice, and could distinguish no difference.

THE NEW EDISON

Come in and let us prove to you in this interesting way the greatness of Mario Laurenti.

Why is an Advertisement?

When the baby laughs, when the sun shines, when the flowers bloom, when dinner sends out its inviting aroma; when anyone of ten thousand things happen which attract your attention and gain your interest, you are being advertised to.

— And that is the "why" and the whole purpose of any advertisement; to gain your attention, secure your interest, arouse your desire; to tell you something you don't know, to remind you of something you have forgotten, to convince you of something concerning which you have been hesitating, to help you get the best at the least cost.

Why is an advertisement? You can wrap the whole question up in a few words: To make you happier. Think it over, and see if you don't find that to be the true answer.

WHAT HAPPENED APRIL 18, 1915.

Russians press on in Carpathians; advance on narrow front between villages of Telepoch and Zuzela; Czech forces have captured 70,000 prisoners and 30 cannons in last six weeks; hold 75 miles of principal mountain chain and advance continues; British submarines lost in the Dardanelles; undersea craft run ashore and Turks capture her crew.

1916.

U. S. congress to meet in joint session tomorrow to hear President Wilson's speech on the submarine crisis with Germany; note to Berlin is delayed; Trebizond, chief Turkish port on the Black Sea is captured by Russian attack from land and sea; swift blow crushes Turkish army; General Fustun orders 2,500 more troops to join General Pershing in Mexico; border troops sent into Mexico will be replaced by militiamen.

1917.

French renew attack on the Aisne front; Germans abandon six villages and much territory between Soissons and Rheims in face of severe assault; line east of Laon holds in face of terrific counter-attack; French have taken 17,000 prisoners and 75 cannons in three days' battle; Ambassador Brand Whiteclark goes to Havre to represent the U. S. at Belgium's temporary capital; U. S. war department establishes officers' training camps; 14 such camps to be placed throughout country; training to begin early in May.

1918.

Big French army arrives to reinforce British front; British withstand German attack all along the line; 140,000 Germans attack Gwency-St. Venant front but are repulsed everywhere; French advance on Aisne river; successful attack made on 2 1/2 mile front at crucial point southeast of Amiens; President Wilson issues proclamation calling for support of Liberty Loan; asks subscriptions as demonstration of our determination to fight; German minister of the navy Capelle asserts that U-boats are winning; tells Reichstag that three times as many ships are sunk than are built.

1919.

Guarantees given to France against invasion by Germany by President Wilson; Danzig is made an international port; Council of Four divided night problems; German government sends army to rescue Munich from the Reds; Minister of Defense Noske directs the operations.

WHAT HAPPENED APRIL 19, 1915.

British advance near Ypres, taking Kemmel Hill; hill is blown up by sappers and infantry follow up the advantage penetrating the German defenses to depth of three miles; Italy to make her terms known to the Allies; negotiations pending regarding the Adriatic coast; break with Austria imminent.

1916.

President Wilson addresses congress on submarine crisis; warns Germany that unrestricted war on merchantmen must stop or we will sever relations with her; Ambassador von Bernstorff advises Berlin to act quickly if friendly relations are to be preserved; President's speech viewed as an ultimatum; Germans on Verdun front capture quarry near Handromont farm; violent bombardment of French lines is continued; British cabinet at odds over conscription; Commons adjourns to give time for agreement; Premier Asquith tells commons that members agree that break up would be a disaster for the nation.

1917.

Germans rush reinforcements to Aisne front to check French offensive; 12 new new divisions placed in the line; French nevertheless make progress; Moronvillers menaced as heights to south and east of town are carried; Bill for selective draft measure soon to be before congress; fight for administration measure to be led by Representative Kahn, Republican.

1918.

Allied front unchanged; reinforced it withstands all German efforts; artillery continues activity but infantry is quiet; Italians on western front in support; will soon be in battle; Schwab, new director of emergency fleet, begins work to speed ship construction; opens headquarters at Philadelphia taking construction staff with him; gets promise of steel.

1919.

MODENA.

Modena, April 19.—The Ladies Aid Society of the Modena M. E. Church will serve a spring supper in the church on Tuesday evening, April 27. The price will be 35 cents.

HOMESPUN YARN.

The housewife who puts down eggs at prices are relatively low will worry less about dollar eggs next winter.

New iron and tinware, like shoes, tend to be "broken in." Rubbing unsalted fat over the ware and baking in the fat does the trick.

Color, flavor and variety should not be lacking in the menu, neither should the color scheme and flavors clash. It's rather a shock to discover a pink jelly has a mint flavor.

Dandelions and other greens may be put down in salt for use when the season for greens is past. The home economist's work of the state college at Ithaca, N. Y., will be glad to tell you how.

Making a family budget helps the family's finances little unless every effort is made to stick to the budget. Have you the bulletin on budget making which the college of agriculture at Ithaca will send you? It is H 124.

Monday loses most of its proverbial luster here when there's a washing machine ready to be lugged into the kitchen from the woodshed. And when the machine can be hooked up to the farm electric plant, there isn't any blue Monday.

Have you wondered why the substitution of eggs for chocolate in your recipe has not always been successful? Perhaps you did not add the fat which is lacking in the cocoa. About one-half tablespoon of fat for each ounce, or one-quarter cup of cocoa should usually be used.

Scherer on Broadway.

Richard A. Scherer, who has been manager of the A. & P. store uptown, has been transferred to the company's store, corner Broadway and Houston street.

P. T. A. No. 3.

The Parent Teachers' Association of School No. 3 will hold its meeting tomorrow afternoon at 2:30.

Never tasted anything better than POST TOASTIES—says Bobby and don't think I ever will!

AGRICULTURE.

It's yours for the asking: "Composition of Feeds." Ask the state college at Ithaca, N. Y. for E 25.

A coal mine will not grow any more coal, but well managed woodland will produce timber indefinitely.

"The hens do not belong in all the gardens, nor all the garden in the hens," observed a man who has had experience keeping 'em shoosed out.

Score one for junior project work: A farmer got up in a farm meeting recently and said: "In 71 years old I have fed hogs all of my life; but I learned more last year watching my girl feed her pig than I've learned the seventy years I've lived."

Many farmers feel the need of a water system and realize its value, but think it is too expensive. They are overlooking the fact that there is a successful and practical water system which is within the reach of every farmer. Ask the state college at Ithaca, or your county agent.

An ingenious suburbanite starts his own feedings in a homemade "cellar-window hotbed." The hinges of a window having a southern exposure were changed so that the window, hinged from the top, could be opened outward and propped against a low concrete hatchway. The ends were shut in with pasteboard. The shallow boxes of seedlings inside had the benefit both of the cellar's heat and the sun.

THE MILK BOTTLE.

Rows of Half Pint Bottles Common in Modern Schools.

A new-comer has appeared in the schoolhouse—the milk bottle. If one visits a school conducted along modern lines, he will find about ten-thirty of 'em in the morning, rows of half-pint bottles containing milk for the undernourished children.

One school child in every five is seriously undernourished; and modern research has demonstrated that milk is the best food for growth. Moreover, child specialists have found that undernourished children gain most rapidly when given two supplementary feedings a day—a mid-morning and a mid-afternoon feeding. The mid-afternoon feeding may be taken at home, since the child is in school.

The schools are now realizing their responsibility in this matter, and are providing milk for the undernourished children. The compulsory education law which brings every child to school, is, in reality, the reason for bringing the milk bottle to school.

Not only is the nutritional condition of the children important; many children formerly refused to drink milk are now learning to like education. The milk is sold at cost to the children who are called to pay for it for the benefit of their families are usually contributed by the mothers' clubs or parent-teachers' associations.

AT THE THEATERS.

Four Woodmen Girls at Keeney's. Beginning Tonight.

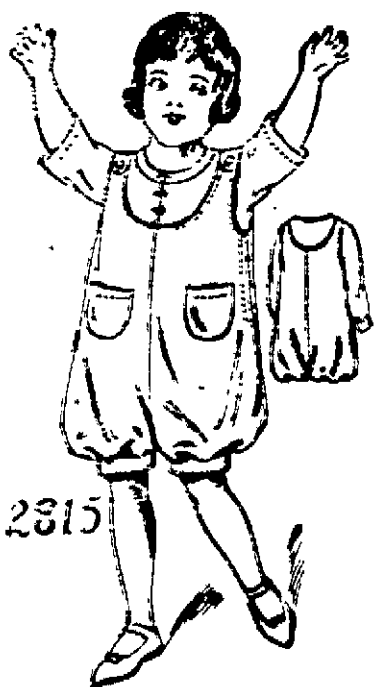

Manager George Gliderleeve has secured another great novelty for Kingston's palace of amusement in these exceptional singers in new songs, harmonies and syncopation, and they have an even chance to prove more popular than the famous Prince Hima Quartet. The musical class photoplays will be continued throughout the week. Tonight William Russell in "The Lincoln Highwayman," a thrilling mystery melodrama, full of thrills and action, but interwoven with a delightful romantic love story. A Mack Sennett comedy starring Ben Turpin and Fox Miller News weekly. Tomorrow, Billie Burke in a delightful comedy, "Wanted a Husband."

"Bright Skies" is the title of a lovable comedy, just full of laughter, which is the attraction at the Auditorium tonight, starring Zasu Pitts, the charming comedienne in a play full of laugh. Ann Little and Jack Hoxie in "Lightning Rides," the thrilling western serial, is an added attraction. Tomorrow Bryant Washburn in "Telling It Over."

The Dirt You Cannot See

No true housekeeper is satisfied with mere surface cleanliness. The family's health and her own peace of mind demands the complete removal of hidden dirt with its lurking germs as well as that which can readily be seen on the surface.

Dirt cannot resist the powerful, purifying air stream of the Royal. It gets all the dirt on the rug, deep down in the rug and even underneath.

Draperies, furniture, walls, ceilings, moldings and the "out-of-the-way" corners and crannies all quickly and easily yield their toll of dirt and dust to the Royal, which cleans by air—alone!

SCHWAB IN MORE BOOKS PROJECT

Charles M. Schwab, perhaps one of the busiest executives in the country, has endorsed the "Books For Everybody" movement and is serving on The National Advisory Council of the "Books For Everybody" \$2,000,000 fund. Librarians are now gathering the fund, which will be used to finance the present time enlarged program of the American Library Association during the next three years. Mr. Schwab is one of fourteen persons of national prominence whose names were made public today by American Library Association as having accepted membership in the council. The council membership as it stands today includes leading educators and public spirited citizens whose war work has won them signal recognition.

FRENCH POSTERS AT HIGH SCHOOL

On the evening of April 23 the public will have the unusual opportunity of viewing ten genuine French posters. These posters were made in the atelier of Constant Duval and vary in size from three to four feet in height to two and a half feet in width. Several noted French artists, including E. Louis Loeisoup, Louis Tausig, George Dorival, F. Lessart, L. Adenot and Constant Duval, are the painters of these illustrations. Ten of the most beautiful sections of France are pictured in gorgeous coloring and in marvelous design. These posters will seem familiar to those who have traveled to any extent in France.

Through the kindness of the French department of the high school the senior class is able to procure these posters for exhibition on the Friday evening of the production of Henry W. Savage's play, "Everywoman."

The French posters will be in a conspicuous place and easily viewed by all at the main entrance of the high school.

A box office will be opened at the Y. M. C. A. and tickets for "Everywoman" may be exchanged for reserved seats on any school afternoon of this week between 3:30 and 5:30 o'clock.

VARSITY GIRLS WIN LAST GAME

On Saturday afternoon in the local high school gymnasium the Girls Varsity finished the season by defeating Fleischmanns by the score of 23-2.

The visitors seemed to be lost on the court and could not find the basket long space for a single field.

Miss Anna Bryne was the star of the game dropping in several fields and playing a good floor game.

The rest of the Kingston team worked hard and occasionally dropped in a field to enliven the game a bit and keep their lead safe.

The local girls have had an exceptionally good season and have lost but three games, which were very close to victories at that.

Ralph Bradford entertained a number of relatives and friends at his home in Eddyville on Sunday. Those present being Mr. and Mrs. George Barnes of Warden, Mr. and Mrs. L. Shufelt of Poughkeepsie, Mr. and Mrs. Harry Sutton and daughter, Pauline of Kingston, Bernard Sampson and son, Gilbert, Mr. and Mrs. Banks of Eddyville, Howard Bradford and son, Orrin, of Eddyville.

The committee having in charge the assembly dance to be held at St. Mary's Hall on Friday evening, April 23, request that all responses be sent to the treasurer, Mrs. C. Rodman Still by Wednesday. This is desired in order to assist in making arrangements for the supper. Shurter's orchestra, which will be augmented by several new players, will furnish the music, which promises to be especially good. The committee consists of Mrs. C. Gordon Reed, Mrs. William Warren, Mrs. Harold King and Miss Sarah Horton.

Francis Allen.

Morton R. Francis and Miss Queens V. Allen, both of Tannersville, were married Sunday afternoon at 3 o'clock in the Rondo Presbyterian church by the Rev. Charles G. Ellis, D. D. They were attended by Stanley E. Francis and Mary M. Francis. The groom is a superintendent of highway in Greene county.

Thurin-Bremer.

Otto J. Thurin of No. 129 Jansen avenue and Miss Bertha May Bremer of No. 56 Van Buren street were united in marriage Sunday afternoon at 3 o'clock in St. Peter's Church by the Rev. Joseph Ostermann, assistant pastor of the church. The bride was attended by Florence Greene and the best man was Charles Greene. Both are popular young folks and have the well wishes of a host of friends. They will reside at No. 125 Jansen avenue. The groom is employed by the plumber, Harry Netburn.

Short-Houghtaling.

Raymond L. Short of No. 59 East Pierpont street and Miss Mary A. Houghtaling of No. 15 Hanratty street were united in marriage at 4 o'clock Sunday afternoon at St. Peter's Church by the pastor, the Rev. John P. Neuman. The bridesmaid was Miss Katherine Woyrowski and the best man William Houghtaling a brother of the bride. Following a reception at the home of the bride Mr. and Mrs. Short left for a honeymoon trip to New York. The groom is employed at the Murphy shipyard and the bride has been employed at Fitzpatrick & Draper's factory.

Armata-Setera.

Joseph Armata and Miss Lucy M. Setera, both of No. 53 Linderman avenue, were united in marriage Sunday afternoon at 2 o'clock in the Church of the Immaculate Conception by the Rev. Francis Lesniowski. The bride was charmingly gowned in white satin and carried a showy bouquet of roses. She was attended by her cousin, Miss Josephine Setera. The best man was Stanley Setera, the bride's brother. A reception followed the ceremony at the home of the bride's parents. The groom is employed at the Ulster Garage. Both he and his bride are popular and have the well wishes of a host of friends. They will reside at No. 53 Linderman avenue.

Dittus-O'Brien.

A quiet wedding took place Sunday afternoon at St. Mary's Church when Kathryn E. O'Brien was united in marriage with Frederick J. Dittus. The ceremony was performed by the Very Rev. Dean J. J. Hickey. The bride was attended by Miss Clara M. Lennon of Patterson, N. J. and William H. Dittus, brother of the groom, acted as best man. A wedding dinner was served at the home of the bride's parents, with only immediate members of each family present. Mr. and Mrs. Dittus left later in the afternoon for New York and New Jersey where they will spend their honeymoon. The young couple have a host of friends who wish them a long and prosperous married life.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

The infant daughter of Mr. and Mrs. Glen Robinson died at its home on Market street, Saugerties, on Saturday morning.

A month's mind Mass will be offered in St. Mary's Church Thursday morning at 8 o'clock for the repose of the soul of Harry S. Gage.

William C. Sterling, a prominent Poughkeepsiean, and one of the old-time well known business men of that city, died Saturday in Washington, D. C.

The body of a grandchild of Dr. and Mrs. S. L. Dawes, former residents of Saugerties, was brought to Saugerties on Saturday and interred in the family plot, Mountain View cemetery.

Stephen H. Donesteele, well known resident of Wittenberg, died at his home Saturday, April 17, aged 55 years. He is survived by his wife, one son, Luther, a brother, Leander, of Wittenberg, and three sisters, Mrs. Frank Van DeBogart of Kingston, Mrs. Eugene Osterander of West Hurley and Mrs. Michael Tene of Wittenberg. The funeral will be held Tuesday afternoon at 1:30, interment in Woodstock.

Henry J. Schroeder died suddenly while seated at his desk in his home on Raritan Heights, Saugerties, on Friday evening. Death came from acute dilation of the heart. Mr. Schroeder came to Saugerties a few years ago, and purchased the R. C. Washburn farm. Up until about a year ago, he was a commission merchant in Wallabout Market. He is interred in a new double lot and some sons. Mr. Schroeder was in his 52nd year.

Miss Helen Hughes, elder daughter of Mr. and Mrs. Charles E. Hughes, died Sunday at Glen Falls. Miss Hughes was 24 years old and was graduated from Vassar College in 1914. After graduation she became associated with the Young Women's Christian Association, first as a volunteer worker in Washington, D. C., and later as a secretary in the northeastern field. Miss Hughes suffered an attack of influenza in fall of 1918 while engaged in war work in Boston. This was followed by pneumonia and from the effects of this illness she never recovered. Her father, Mr. Charles E. Hughes, is survived by a brother, Charles E. Hughes, Jr., of New York, and a sister, Miss Catherine Hughes, a senior in Walla Walla. The funeral will be private and the body will be taken to New York for burial in Woodlawn cemetery. Miss Hughes is related to Dr. W. H. Connelly, Henry C. Connelly, Arthur C. Connelly and Mrs. Charles S. Wood of this city. Charles E. Hughes being their cousin, his mother being a sister to the late Senator Henry C. Connelly and the late Carey S. Connelly.

TOMORROW--TUESDAY

Special Music Opening Day

An Invitation

The management of THE ADVANCE RESTAURANT extends to you a most cordial invitation to attend the opening of what is planned to be the most modern, high-class, moderate priced Restaurant in the Hudson Valley, on

TUESDAY, APRIL 20th, 1920

EVERYTHING FIRST CLASS

THE ADVANCE RESTAURANT is most conveniently located. It is in ideal proximity to Kingston's theatres, hotels, department stores. It is planned to be a first-class, well conducted Restaurant where one may have served a simple lunch or an extensive course dinner, where gentlemen will find the service they desire and where ladies will always feel perfectly at home. Where families may come for Sunday dinners, or where touring parties will be well cared for.

French and Danish Pastry

Announcement is made that in addition to the Restaurant and Dining feature, THE ADVANCE will have for sale to the housewives of Kingston, French and Danish Pastry and other fine Cakes. Special Dinners for parties will be arranged and Lunches will be neatly put up for automobile parties.

SOUVENIRS WILL BE PRESENTED TO ALL VISITORS ON OPENING DAY.

We are aiming to provide such a Restaurant and Lunch Parlor as we have been told a thousand times Kingston needs. We will do our best and we want the people to come on TUESDAY to see the place from Restaurant to Kitchen. We are confident all who call will be pleased.

OUR DINING ROOM WILL OPEN DAILY FROM 6:00 O'CLOCK A. M. to 12 O'CLOCK MIDNIGHT. OUR PRICES WILL BE MODERATE—SPECIAL LUNCH FROM 12 to 2:00 O'CLOCK—55c. TABLE D'HOTTE DINNER FROM 6 to 9:00 P. M.

L. SCHWARTZ, Prop.

TO ALL PERSONS INTERESTED IN THE ABOVE NAMED DEFENDANTS, YOU ARE HEREBY SUMMONED to appear in the court in this action, and to answer the complaint within twenty days of the date of service, and in case of your failure to appear, judgment will be taken against you by default for the relief demanded in the complaint.

STATE OF NEW YORK—COUNTY OF ALBANY: I, ALFRED LAWRENCE, being sworn, depose and say that ALFRED LAWRENCE and ALICE M. LAWRENCE are the defendants in the above named action, and that they are the owners and operators of the restaurant known as THE ADVANCE RESTAURANT, located at 286 Wall Street, in the City of Kingston, New York.

Subscribed and sworn to before me this 19th day of April, 1920.
JAMES W. DEWEY,
Notary Public for Albany County, New York.

KEEP YOUR EXPENSES DOWN

Every contractor makes many short city trips daily to visit his work which he is interested in and much depends upon his method of transportation. Walking is slow and tiring. Trolleys are uncertain, and not always available. Automobiles are needlessly expensive. But for the service required the COLUMBIA bicycle is the bill perfectly. It is always ready—swift, reliable and comfortable. The business man can swing into the saddle of his Columbia at any time and get the quick action that means so much to him.

Let us show you the latest COLUMBIA model in their new Royal Blue finish. Styles to suit all needs and purses.
